Vascular Surgery

Program

## Program

**Groups audience:** 2021 Vascular Annual Meeting

**At the heart of every Vascular Annual Meeting is research and education. The days are filled with presentations on the latest information on preventing vascular disease, mitigating its effects and improving patient care.**

*At this time, the 2021 VAM program is still being finalized. Please check back in March for more details, including the early planning aid "Schedule at a Glance".*
