Clinical research studies

Abdominal aortic aneurysm

Late single-center outcome of the Talent Abdominal Stent Graft after a decade of follow-up
Yannick W. ’t Mannetje, Pieter P.H.L. Broos, Roy F.A. van Poppel, Marc R.H.M. van Sambeek, Joep A.W. Teijink, Philippe W.M. Cuypers

Results of standard suprarenal fixation endografts for abdominal aortic aneurysms with neck length ≤10 mm in high-risk patients unfit for open repair and fenestrated endograft
Enrico Gallitto, Mauro Gargiulo, Antonio Freyrie, Claudio Bianchini Massoni, Rodolfo Pini, Chiara Mascoli, Gianluca Faggioli, Andrea Stella

Failure mode analysis of the Endologix endograft
Gary W. Lemmon, Rahgu L. Motaganahalli, Tiffany Chang, James Slaven, Ben Aumiller, Bradford J. Kim, Michael C. Dalsing

Intraoperative contrast-enhanced cone beam computed tomography to assess technical
success during endovascular aneurysm repair
Christof Johannes Schulz, Matthias Schmitt, Dittmar Böckler, Philipp Geisbüsch

Transperitoneal versus retroperitoneal approach for open abdominal aortic aneurysm repair in the targeted vascular National Surgical Quality Improvement Program
Dominique B. Buck, Klaas H.J. Ultee, Sara L. Zettervall, Pete A. Soden, Jeremy Darling, Mark Wyers, Joost A. van Herwaarden, Marc L. Schermerhorn

Thoracic and thoracoabdominal aortic aneurysms and dissections

Branched versus fenestrated endografts for endovascular repair of aortic arch lesions
Nikolaos Tsilimparis, E. Sebastian Debus, Yskert von Kodolitsch, Sabine Wipper, Fiona Rohlffs, Christian Detter, Blayne Roeder, Tilo Kölbl

Endovascular treatment of aneurysms using fenestrated-branched endografts with distal inverted iliac limbs
Vikalp Jain, Peter Banga, Raghuveer Vallabhaneni, Matthew Eagleton, Gustavo Oderich, Mark A. Farber

Discussion

Improving mortality trends for hospitalization of aortic dissection in the National Inpatient Sample
Kate P. Zimmerman, Gustavo Oderich, Alberto Pochettino, Kristine T. Hanson, Elizabeth B. Habermann, Thomas C. Bower, Peter Gloviczki, Randall R. DeMartino

Lower extremity arterial disease

Predictive ability of the Society for Vascular Surgery Wound, Ischemia, and foot Infection (WIfI) classification system following infrapopliteal endovascular interventions for critical limb ischemia
Jeremy D. Darling, John C. McCallum, Peter A. Soden, Yifan Meng, Mark C. Wyers, Allen D. Hamdan, Hence J. Verhagen, Marc L. Schermerhorn
Impact of femoropopliteal endovascular interventions on subsequent open bypass
Shaun M. Gifford, Mark D. Fleming, Bernardo C. Mendes, Kendall C. Stauffer, Randall R. De Martino, Gustavo S. Oderich, Peter Gloviczki, Thomas C. Bower

Vascular Quality Initiative and National Surgical Quality Improvement Program registries capture different populations and outcomes in open infraringuinal bypass

Discussion

Heparin-bonded expanded polytetrafluoroethylene femoropopliteal bypass grafts outperform expanded polytetrafluoroethylene grafts without heparin in a long-term comparison
Russell H. Samson, Ricardo Morales, David P. Showalter, Michael R. Lepore Jr., Deepak G. Nair

Discussion

The financial burden of surgical and endovascular treatment of diabetic foot wounds
Maximilian O. Joret, Anastasia Dean, Colin Cao, Joanna Stewart, Venu Bhamidipaty

Ankle-brachial index predicts change over time in functional status in the San Diego Population Study
Christina L. Wassel, Matthew A. Allison, Joachim H. Ix, Dena E. Rifkin, Nketi I. Forbang, Julie O. Denenberg, Michael H. Criqui

Carotid and subclavian artery disease

Predictors of poor outcome after carotid intervention
Anahtia Dua, Michael Romanelli, Gilbert R. Upchurch Jr., James Pan, Douglas Hood, Kim J. Hodgson, Sapan S. Desai

Plaque echodensity and textural features are associated with histologic carotid plaque instability
Robert J. Doonan, Jessica Gorgui, Jean P. Veinot, Chi Lai, Efthyvoulos Kyriacou, Marc M. Corriveau, Oren K. Steinmetz, Stella S. Daskalopoulou
Primary closure after carotid endarterectomy is not inferior to other closure techniques.

Resolution of ischemic symptoms after percutaneous angioplasty for a symptomatic subclavian artery stenosis.
Leszek Wrotniak, Anna Kabak-Ziembicka, Agnieszka Rosiewiecka, Piotr Musiaek, Paweł Bogacki, Mariusz Trystu’a, Krzysztof Przewocki

Mesenteric artery disease

Superior mesenteric artery outcomes after fenestrated endovascular aortic aneurysm repair.
Salim Lala, Martyn Knowles, David Timaran, Mirza Shadman Baig, James Valentine, Carlos Timaran

Vascular access

Radial artery deviation and reimplantation inhibits venous juxta-anastomotic stenosis and increases primary patency of radial-cephalic fistulas for hemodialysis.
Nirvana Sadaghianloo, Serge Declemy, Elixène Jean-Baptiste, Pierre Haudebourg, Christophe Robino, Mohamed Shariful Islam, Réda Hassen-Khodja, Alan Dardik

Invited commentary
Andres Schanzer

The efficacy and durability of the Venous Window Needle Guide implanted on uncannulatable arteriovenous fistulas.
Spencer Galt, Mark Crawford, John Blebea, Eric Ladenheim, Barry Browne

Equivalent outcomes with standard and heparin-bonded expanded polytetrafluoroethylene grafts used as conduits for hemodialysis access.
Mark G. Davies, Javier E. Anaya-Ayala, Hosam F. El-Sayed
Readmissions after vascular surgery

A telephone call 1 week after hospitalization can identify risk factors for vascular surgery readmission
John R. Hornick, Joshua A. Balderman, Ronnie Eugea, Luis A. Sanchez, Mohamed A. Zayed

Vascular trauma

Iliac injury during abdominal and thoracic aortic endovascular intervention
Samir K. Shah, Federico E. Parodi, Matthew J. Eagleton, James F. Bena, Daniel G. Clair

Contemporary outcomes of civilian lower extremity arterial trauma
Nathan L. Liang, Louis H. Alarcon, Geetha Jeyabalan, Efthymios D. Avgerinos, Michel S. Makaroun, Rabih A. Chaer

Basic research studies

From bench to bedside

Endogenous superoxide dismutase activation by oral administration of riboflavin reduces abdominal aortic aneurysm formation in rats
Zhenhai Yu, Keisuke Morimoto, Jie Yu, Wulan Bao, Yutaka Okita, Kenji Okada

Invited commentary
Christopher L. Skelly

Angiogenic properties of human placenta-derived adherent cells and efficacy in hindlimb ischemia
Aleksandar Francki, Kristen Labazzo, Shuyang He, Ellen Z. Baum, Stewart E. Abbot, Uri Herzberg, Wolfgang Hofgartner, Robert Hariri, on behalf of the Celgene Cellular Therapeutics Research Group
Invited commentary
Zhao-Jun Liu, Omaida C. Velazquez

Cutaneous vascularization of the femoral triangle in respect to groin incisions
Cécilia Tremblay, Detlev Grabs, Daniel Bourgouin, Gilles Bronchti

Invited commentary
Eric David Endean

Systemic inflammation as a predictor of clinical outcomes after lower extremity angioplasty/stenting
Kenneth DeSart, Kerri O’Malley, Bradley Schmit, María-Cecilia Lopez, Lyle Moldawer, Henry Baker, Scott Berceli, Peter Nelson

A model to demonstrate that endotension is a nonvisualized type I endoleak
Stuart Blackwood, Doran Mix, Ankur Chandra, Alan M. Dietzek

Examination of near-wall hemodynamic parameters in the renal bridging stent of various stent graft configurations for repairing visceral branched aortic aneurysms
Taylor Suess, Joseph Anderson, Laura Danielson, Katie Pohlson, Tyler Remund, Elizabeth Blears, Stephen Gent, Patrick Kelly
Open Access

Society for Vascular Surgery® documents

Reporting standards of the Society for Vascular Surgery for thoracic outlet syndrome: Executive summary
Karl A. Illig, Dean Donahue, Audra Duncan, Julie Freischlag, Hugh Gelabert, Kaj Johansen, Sheldon Jordan, Richard Sanders, Robert Thompson

Reporting standards of the Society for Vascular Surgery for thoracic outlet syndrome
Karl A. Illig, Dean Donahue, Audra Duncan, Julie Freischlag, Hugh Gelabert, Kaj Johansen, Sheldon Jordan, Richard Sanders, Robert Thompson
Case report of the month

Complete regression of a symptomatic, mycotic juxtarenal abdominal aortic aneurysm after treatment with fenestrated endovascular aneurysm repair
Jonathan M. Durgin, Edward J. Arous, Shivani Kumar, William P. Robinson III, Jessica P. Simons, Andres Schanzer

Vascular images

Occurrence of a type 2 proatlantal intersegmental artery during carotid endarterectomy for symptomatic stenosis
Joseph M. Liechty, Rebecca Jo Weddle, William P. Shutze, Bertram L. Smith

A rare case of a giant superficial femoral artery aneurysm
Robert Moskowitz, Gregory Clabeaux, Aimee Swartz, Roger Walcott

Three-dimensional printing for preoperative planning of renal artery aneurysm surgery
Judith C. Lin, Eric Myers

Review article

Screening individuals with intracranial aneurysms for abdominal aortic aneurysms is cost-effective based on estimated coprevalence
Benjamin Z. Ball, Boxiang Jiang, Prachi Mehndiratta, George J. Stukenborg, Gilbert R. Upchurch Jr., James F. Meschia, Bradford B. Worrall, Andrew M. Southerland

Vascular and endovascular techniques

Lower extremity arterial revascularization using conditioned small-diameter great saphenous vein
Historical vignettes in vascular surgery

Gangrene, amputation, and allogeneic transplantation in the fifth century ad: A pictorial representation
Antonio Perciaccante, Frank J. Rühli, Francesco M. Galassi, Raffaella Bianucci

CPT advisor

Improving mortality trends for hospitalization of aortic dissection in the National Inpatient Sample
Benjamin M. Lerner, Sean P. Roddy

Abstracts

Prognosis of Asymptomatic Carotid Artery Occlusion Systematic Review and Meta-Analysis
D.G. Hackam

Cholesterol Lowering in Intermediate-Risk Persons Without Cardiovascular Disease
S. Yusuf, J. Bosch, G. Dagenais

Comparison of Long-Term Mortality After Ruptured Abdominal Aortic Aneurysm in England and Sweden
A. Karthikesalingam, A. Wanhainen, P.J. Holt

Periodontitis Increases the Risk of a First Myocardial Infarction: A Report From the PAROKRANK Study
L. Ryden, K. Buhlin, E. Ekstrand
Drug-Coated Balloon Versus Standard Balloon for Superficial Femoral Artery In-Stent Restenosis: The Randomized Femoral Artery In-Stent Restenosis (FAIR) Trial
H. Krankenberg, T. Tubler, M. Ingwersen

Multicenter Study of Abdominal Aortic Aneurysm Measurement and Enlargement
F.A. Lederle, S. Noorbalooshi, S. Nugent

The Impact of Functional Dependency on Outcomes After Complex General and Vascular Surgery
