

Journal of Vascular Surgery

Journal of Vascular Surgery

The *Journal of Vascular Surgery*® (*JVS*) is the official journal of the Society for Vascular Surgery®

(SVS). Since the first issue was released in 1984, *JVS* has offered vascular, cardiothoracic, and general surgeons with original, peer-reviewed articles related to:

- clinical and experimental studies
- noninvasive diagnostic techniques
- processes and vascular substitutes
- microvascular surgical techniques
- angiography
- endovascular management

In recent years, the Journal has also published a number of supplemental issues focused on patient diversity, diabetic foot ulcers, and other issues pertinent to practicing vascular surgeons.

Each month, *JVS* is mailed to nearly 4,000 subscribers. It ranks 34 out of 200 journals in the category of surgery in the 2017 Science Citation Index®, Clarivate Analytics. The *Journal's* 2017 impact factor, a calculation of average

citations per article, is 3.294.

JVS subscriptions are a benefit included in membership with the Society for Vascular Surgery, but are also available to non-members.
