

## Senior Membership

# Senior Membership

An Active or International member who has fully retired from vascular surgery may become a Senior member by notifying the Society for Vascular Surgery membership department. There is no age requirement to become a Senior member. Senior status may also be awarded to those who permanently leave vascular surgery for health concerns, or other reasons approved by the Board of Directors.

Requests for senior status should be submitted *in writing* to [membership@vascularsociety.org](mailto:membership@vascularsociety.org). An email stating that you have fully retired from the practice of vascular surgery is sufficient.

Senior members are exempt from annual dues. Senior members may purchase the *Journal of Vascular Surgery* at a discounted rate of \$75 per year. Journal subscription forms are sent in November annually to the address on file.

If you have questions, please email the SVS membership office or call 312-334-2313.?
