Corporate Partners

The medical industry is supportive of the mission and initiatives of the Society for Vascular Surgery (SVS). Corporations partner with SVS to advance the care of vascular patients through support of the Society's meetings, events and initiatives. Support of SVS programming and services provides a unique and valued opportunity to establish companies as an integral part of the vascular health community.

Partners are acknowledged through a recognition program that provides exposure, extends the corporate message and builds loyalty among vascular surgeons.
