Mentor Match Program

Mentor Match Program
In 2019, the SVS launched a Mentor Match Program available to Active, Medical Student and General Surgery Resident members. This is meant to provide a resource to younger members who are interested in learning more about a career in vascular surgery, as well as an opportunity for practicing vascular surgeons to mentor.

The match program is available through SVSConnect, an online community only available to SVS members.

If you are not a member of the society, visit our membership page to begin the application process.
