Algorithms for Modern Venous Care

Saturday, May 21, 2016
University of Michigan, Frankel Cardiovascular Center
Apr. 13 to May. 21
Register

This course will cover the newest advances and standards of care in the diagnosis and management of venous disease including:

- comprehensive strategies for managing acute or chronic, deep or superficial, venous thrombosis.
- knowledge of how and when to use novel, direct oral anticoagulants, along with evolving reversal strategies.
- latest treatment options for chronic venous insufficiency, including therapies directed at varicose veins.
- appropriate work-up, management, and referral indications for the swollen leg, lymphedema, and venous ulcers.
- identification of patients appropriate for pulmonary thromboembolectomy.
- IVC filter indications, device options, procedure risks, monitoring strategies, and retrieval options.
- symptoms of pelvic congestion syndrome and endovascular options for treatment.
- endovascular Iliocaval venous recanalization options for acute and chronic DVT.

Schedule:
7:30 am - Registration & Continental Breakfast

8:00 - Welcome and Course Announcements - Dawn Coleman, MD

8:10 - Venous Health Program - Clare Harris, NP

8:20 - Diagnosis and Medical Management of Venous Thromboembolism - James Froehlich, MD, MPH

8:50 - Update on Direct Oral Anticoagulants - Geoffrey Barnes, MD, MSc

9:20 - Contemporary and Comprehensive Management of Chronic Venous Insufficiency and Varicose Veins - Dawn Coleman, MD

9:50 - Diagnosis and Management of the Swollen Limb, Compression Therapy, and Wound Care for Venous Ulceration - Thomas Wakefield, MD

10:20 - Break

10:35 - Chronic Pulmonary Thromboembolic Disease and Evolving Indications for Pulmonary Thromboendarterectomy
11:05 - Inferior Vena Cava (IVC) Filters: Updates in Management and Retrieval Options - Minhaj Khaja, MD, MBA

11:35 - Pelvic Congestion Syndrome - Bill Majdalany, MD

12:05 pm - Iliocaval Venous Recanalization for Chronic Deep Venous Thrombosis (DVT) and Catheter-Based Interventions for Acute DVT - David Williams, MD

12:35 - Course Adjourns

**Course Directors:**
Dawn Coleman, MD
Course Director
Assistant Professor, Section of Vascular Surgery, Department of Surgery;
Program Director, Integrated Vascular Residency Program

Faculty:
Geoffrey Barnes, MD, MSc - Clinical Lecturer, Department of Internal Medicine
Dawn Coleman, MD - Course Director, Assistant Professor, Section of Vascular Surgery, Department of Surgery;
Program Director, Integrated Vascular Residency Program
James Froehlich, MD, MPH - Professor, Department of Internal Medicine; Director, Vascular Medicine; Director, Anticoagulation Clinic
Jonathan Haft, MD - Associate Professor, Departments of Cardiac Surgery and Anesthesiology; Director, Extra Corporeal Life Support Program Associate Director, Cardiovascular Intensive Care Units
Clare Harris, NP - Advanced Practice Nurse, Venous Health Program, Department of Internal Medicine
Minhaj Khaja, MD, MBA - Assistant Professor, Department of Radiology; Program Director, Interventional Radiology Residency; Associate Program Director, Radiology Residency
Bill Majdalany, MD - Assistant Professor, Department of Radiology; Director, Vascular and Interventional Radiology Fellowship Program
Thomas Wakefield, MD - Professor and Head, Section of Vascular Surgery, Department of Surgery
James C. Stanley Professor of Vascular Surgery; Director, Frankel Cardiovascular Center
David Williams, MD - Professor, Departments of Radiology and Internal Medicine
