Introduction to Adult Echocardiography

Monday, April 20, 2020 to Friday, April 24, 2020
Gulfcoast Medicine Ultrasound
Feb. 26 to Apr. 19
Register

Introduction to Adult Echocardiography Live Training & CME Course is a five (5) day comprehensive echocardiography course in St. Petersburg, FL that is taught by leading echocardiography experts and is designed to provide a strong foundation to perform and/or interpret adult cardiac ultrasound examinations. All topics of discussion are based on ASE, ACEP, and WINFOCUS ultrasound practice guidelines.

The structure of the course is a combination of live lectures, scanning demonstrations, interactive case studies, and a human heart cadaver lab presented by echocardiography experts. Extensive scanning skills training is provided with our industry leading 3:1 participant to faculty hands-on scan ratio with live models to enable the learner to immediately begin integrating the skills learned into clinical practice. The adult echocardiography training courses are specifically designed for physicians, sonographers and other medical professionals who are looking for only the best echocardiography training and CME.
