Strandness Symposium and Vascular Care 2017

Sunday, February 5, 2017 to Thursday, February 9, 2017
UC Davis Health System
Register

Established in 1987 by Dr. D. Eugene Strandness, the “father of the vascular laboratory,” the biennial Strandness Symposium addresses diagnostic and therapeutic approaches to vascular disease. The symposium continues to emphasize the themes of Dr. Strandness' life work and his continued legacy, use of ultrasound and other non-invasive vascular tests, and the rigorous scientific validation of new therapeutic approaches to vascular disease.

Vascular Care provides multi-disciplinary perspectives on the common problems and unusual challenges encountered in the care of patients with vascular diseases. The Program emphasizes “Total Vascular Care,” that the best outcomes result from the combination of technical excellence and comprehensive, patient focused care. Vascular Care offers broad perspectives, addressing the novel and the state-of-the-art, as well as established “best practices” and evidence-based clinical guidelines.

These two popular programs are again offered jointly as the “Strandness Symposium and Vascular Care” continuing medical education course.

Schedule:
The Vascular Forum session of presentations by students, residents, and fellows opens the program on Sunday afternoon, February 5, 2017.

Morning plenary sessions on Monday, February 6 through Thursday, February 9 will address cerebrovascular, venous, aortic, visceral vascular, and peripheral arterial topics.

Afternoon workshops (Monday, Tuesday, and Wednesday) provide smaller groups and individual teaching opportunities, covering imaging and treatment.
The vascular laboratory interpretation course on Thursday afternoon provides a comprehensive review of interpretation criteria used in the vascular laboratory. Case-based presentations provide an engaging interactive format. Clinical examples are used to illustrate interpretation of typical cases from the vascular lab, as well as cases representing unusual clinical entities.

**Lodging:**
Grand Wailea, a Waldorf Astoria Resort

3850 Wailea Alanui Drive

Wailea (Maui), Hawaii, 96753, USA

(808) 875-1234

**Course Directors:**
David L. Dawson, MD, RVT, RPVI
Professor
Division of Vascular Surgery
UC Davis, Health System

R. Eugene Zierler, MD, RPVI
Medical Director
D.E. Strandness Jr. Vascular Laboratory
University of Washington Medical Center

**Faculty:**
UC DAVIS FACULTY:

John G. Carson, MD, RPVI
Ghaneh Fananapazir, MD
Julie A. Freischlag, MD
Stefanie Generao, RN, NP
John R. Laird, Jr., MD
William C. Pevec, MD, RVT, RPVI
Edward L. Ronningen, BS, RVT
Mackenzie M. Seckora, MHA, BS, RVT
Meryl Simon, MD, RPVI
Gagan Singh, MD
Catherine Vu, MD

GUEST FACULTY:

Dennis F. Bandyk, MD
UC San Diego Health System
Michael T. Caps, MD, MPH
Kaiser Permanente, Honolulu
Brian DeRubertis, MD
UCLA Medical Center
Kathleen D. Gibson, MD
Lake Washington Vascular Surgeons
Fernando Fleischmann, MD
USC Keck School of Medicine
Sukgu M. Han, MD
USC Keck School of Medicine
Mark H. Meissner, MD
University of Washington
Gregory L. Moneta, MD
Oregon Health & Science University
David P. Parlato, MBA, RVT, FSVU
The Christ Hospital, Cincinnati
Thom W. Rooke, MD, RVT
Mayo Clinic
Darren B. Schenider, MD
Weill Cornell Medicine
Mehdi H. Shishehbor, DO, RPVI
Cleveland Clinic
Niten Singh, MD
University of Washington
Sara M. Skjonsberg, RVT
University of Washington
Watson B. Smith, RDMS, RVT
University of Washington
Molly Zaccardi, MHA, RVT
University of Washington
