

VAST³ 2021: Vascular Techniques & Technology Thinktank

VAST³ 2021: Vascular Techniques & Technology Thinktank

Thursday, October 21, 2021 to Saturday, October 23, 2021

Center for Vascular Awareness

May. 24 to Sep. 1

[Register](#)

An accredited annual meeting that brings together world-renowned vascular surgeons, interventionalists, and health care providers in finding solutions to complex vascular issues and improving patients' lives.

The VAST³ 2021 meeting will focus on problem solving approaches to complex vascular procedures and complications using cutting edge techniques and technologies.

Each 50-minute roundtable discussion will be led by a moderator and panel that will dissect each case, discuss vascular tips, tricks and bailouts to find the ideal surgical and endovascular solutions to complex vascular issues that we face everyday.

In the Beyond Evidence session, competing operatives break down the evidence, distill fact from fiction, answer key controversial questions, and duel on what the evidence tells us and what it does not!

Engage-Engage-Engage! That's what you will witness during each session as the audience keeps the moderators and panelists on their toes by asking them key WTF (When This Fails) questions.

Meeting City and State: Hilton Head, SC

Meeting Location: The Westin Hilton Head Island Resort & Spa Two Grasslawn Ave, Hilton Head Island, SC 29928
