SVS members are at the forefront of vascular news and discovery. Find news about the Society for Vascular Surgery, its membership and its initiatives, below.

Advocating for Patients and Medical Professionals

The political action committee of the Society for Vascular Surgery advocates for legislation that supports best practices for patients and medical professionals. The current changes in health care reimbursement directly impact vascular surgeons and their patients. SVS is taking the lead in working with government officials to develop fair laws and practice guidelines. Volunteer members and staff are working to ensure that lawmakers understand the impact of their work.

Gender Differences in Vascular Disease Require Personalized Approach in Care

ROSEMONT, Ill., March 9, 2020 – Women’s heart health takes center stage as American Heart Month ends and National Women’s History Month and International Women’s Day are observed. The Society for Vascular Surgery shares the latest news on what women — and the people who love them — should know. Vascular surgeons are specialists who treat conditions of the vascular system, which impact heart health.
