

PRESERVE Trial

PRESERVE Trial

The PRESERVE Trial (**P**redicting the **S**afety and **E**ffectiveness of Inferior **V**ena Cava Filters), is the first large-scale, multi-specialty, prospective clinical study to evaluate the use of inferior vena cava (IVC) filters and related follow-up treatment in the United States.

It is sponsored by IVC Filter Study Group Foundation, which is a joint collaboration between the Society for Vascular Surgery and the Society of Interventional Radiology.
