

Multispecialty Documents

Multispecialty Documents

The Society occasionally participates in Multi-specialty Consensus Documents with external organizations. A list of these documents can be found below:

SIR IVC Filter

Journal of Vascular and Interventional Radiology: September 8, 2020; DOI: <https://doi.org/10.1016/j.jvir.2020.06.014>

Compression therapy after invasive treatment of superficial veins of the lower extremities: Clinical practice guidelines of the American Venous Forum, Society for Vascular Surgery, American College of Phlebology, Society for Vascular Medicine, and International Union of Phlebology

J Vasc Surg: Venous and Lym Dis 2019;7:17-28

2016 AHA/ACC Guideline on the Management of Patients With Lower Extremity Peripheral Artery Disease

J Am Coll Cardiol. 2016;():. doi:10.1016/j.jacc.2016.11.007

ACC/AHA/SCAI 2014 Health Policy Statement on Structured Reporting for the Cardiac Catheterization Laboratory

J Am Coll Cardiol. 2014;():. doi:10.1016/j.jacc.2014.03.020

2011 Appropriate Use Criteria - Peripheral Vascular Ultrasound and Physiological Testing Part 1: Arterial Ultrasound and Physiological Testing

J Vasc Surg 2012; 56; e17-e51

A Call to Action: Women and Peripheral Artery Disease: A Scientific Statement From the American Heart Association

February 15 2012, doi:10.1161/CIR.0b013e31824c39ba

2011 ACCF/AHA Focused update of the guideline for the management of patients with peripheral artery disease (updating the 2005 guideline)

A Report of the American College of Cardiology Foundation/American Heart Association Task Force on Practice Guidelines Developed in Collaboration With the Society for Cardiovascular Angiography and Interventions, Society of Interventional Radiology, Society for Vascular Medicine, and Society for Vascular Surgery

J Vasc Surg 2011;54: e32-e58

2011 ASA/ACCF/AHA/AANN/AANS/ACR/ASNR/CNS/SAIP/SCAI/SIR/SNIS/SVM/SVS Guideline on the Management

of Patients With Extracranial Carotid and Vertebral Artery Disease
Circulation 2011 Jul 26;124(4):e54-130

ACCF/AHA/ACR/SCAI/SIR/SVM/SVN/SVS 2010 performance measures for adults with peripheral artery disease
J Vasc Surg 2010;52:1616-52

Strategies to prevent and heal diabetic foot ulcers: Building a partnership for amputation prevention A Joint Publication of the SVS and APMA
J Vasc Surg 2010;52: September Supplement 2010

- Rescuing Sisyphus: The team approach to amputation prevention
- History of the team approach to amputation prevention: Pioneers and milestones
- The costs of diabetic foot: The economic case for the limb salvage team
- Toe and flow: Essential components and structure of the amputation prevention team
- What you can't feel can hurt you
- Débridement of the noninfected wound
- Off-loading the diabetic foot for ulcer prevention and healing
- Surgical off-loading of the diabetic foot
- Wound care: The role of advanced wound healing technologies
- Medical therapy of diabetic foot infections
- A step-wise approach for surgical management of diabetic foot infections
- Noninvasive assessment of lower extremity hemodynamics in individuals with diabetes mellitus
- Arterial imaging in patients with lower extremity ischemia and diabetes mellitus
- Current assessment of endovascular therapy for infrainguinal arterial occlusive disease in patients with diabetes
- Challenges of distal bypass surgery in patients with diabetes: Patient selection, techniques, and outcomes

Inter-Society Consensus for the Management of Peripheral Arterial Disease (TASC II)

The Trans-Atlantic Inter-Society Consensus Document on Management of Peripheral Arterial Disease (TASC) was published in January 2000 as a result of cooperation between 14 medical and surgical vascular, cardiovascular, vascular radiology and cardiology societies in Europe and North America.

J Vasc Surg 2007; 45: S5-S67
