

Eligible Awards

## Eligible Awards

**Groups audience:** SVS Foundation

The following awards are eligible for the SVSF Mentored Research Career Development Award Program

### Mentored Clinical Scientist Research Career Development Award K08

Prepares clinically trained individuals for careers that have a significant impact on the health-related research needs of the Nation. This program provides support and protected time for an intensive, supervised research career development experience in the fields of biomedical, behavioral, or clinical research, including translational research.

### Mentored Patient-Oriented Research Career Development Award K23

Supports the career development of individuals with a clinical doctoral degree, who have the potential to develop into productive, clinical investigators, and who have made a commitment to focus their research endeavors on patient-oriented research.

### NHLBI Mentored Research Scientist Career Development Award (NIH Parent K01)

The NHLBI only uses the K01 for highly innovative research in specific areas

### NHLBI Mentored Research Scientist Career

## Development Award to Promote Faculty Diversity in Biomedical Research (NIH Diversity K01)

Enhances the pool of highly trained investigators from diverse backgrounds underrepresented in research areas of interest to the NHLBI. Targeted toward individuals whose basic, clinical, and translational research interests are grounded in the advanced methods and experimental approaches needed to solve problems related to cardiovascular, pulmonary, and hematologic diseases and sleep disorders in the general and health disparities populations.

## AHRQ Mentored Clinical Scientist Research Career Development Award (K08)

The AHRQ Mentored Clinical Scientist Research Career Development Award program helps ensure that a diverse pool of highly trained health services researchers is available in adequate numbers and in appropriate research areas to address the mission and priorities of AHRQ.
