CURATED SESSIONS FOR YOUNG SURGEON ATTENDEES

New this year, the SVS Young Surgeons Committee has curated 2017 Vascular Annual Meeting program’s offerings to further help young surgeon attendees more easily navigate the meeting via a listing of recommended sessions/abstracts of particular interest to this audience. To easily identify these sessions/abstracts in the program, you’ll find a unique icon (see top left) denoting these audiences.

**Wednesday, May 31, 2017**

7:00 - 10:00 am  
**P1:** Updates and Troubleshooting in Dialysis Access  
**P2:** Complications Associated with Routine EVAR

7:30 - 11:30 am  
**V1:** VESS Paper Session 1  
- **VESS01** Real World Experience with Gore IBE for Treatment of Bilateral Common Iliac Artery Aneurysms  
- **VESS06** Clinical Outcome of Ultrasound-Accelerated Catheter-Directed Thrombolytic Therapy for the Treatment of Submassive Pulmonary Embolism  
- **VESS09** Strategies to Decrease Wound Complications Following Open Infrainguinal Revascularization  
- **VESS10** ICU Admission After EVAR Is Primarily Determined by Hospital Factors, Adds Significant Cost, and Is Often Unnecessary  
- **VESS14** Early Validation of a Tool to Standardize Vascular Access Procedure Selection for Hemodialysis

8:00 - 10:00 am  
**W1:** Managing Crossing Long CTO  
**W2:** Management of Outpatient Angio Suites

10:15 am - 1:15 pm  
**P3:** My Worst Complication: How it was Managed and Lessons Learned  
**P4:** New Horizons in Treatment of Extra-Cranial Cerebrovascular Disease

10:30 am - 12:30 pm  
**W4:** FEVAR Planning and Sizing  
**W5:** Tips & Tricks for FEVAR  
**W6:** Fundamentals of Vascular Surgery: Assessor Training

12:30 - 2:45 pm  
**FT:** International Fast Talk  
- **FT01** Is EVAR of Asymptomatic AAA Always Justified in Octogenarians?  
- **FT02** Standard “Off the Shelf” Multibranched Thoraco-abdominal Endograft in Urgent and Elective Patients with Single and Staged Procedures in a Multi-center Experience
FT07
Anatomical Predictors of Long-Term Mortality After Standard EVAR

FT15
Endovascular versus Open Treatment of Severe Aortoiliac Occlusive Disease: Outcomes of Kissing Self-Expanding Covered Stent for Reconstruction of the Aortic Bifurcation

FT17
Factors Predicting Limb Salvage in Acute Limb Ischemia Treated at a Tertiary Referral Center

FT21
Comparison of Direct Iliofemoral Stenting with Staged Stenting After Angiojet Rheolytic Thrombectomy in Patients with Acute Deep Vein Thrombosis

12:30 - 4:00 pm

V2: VESS Paper Session 2

VESS21
Defining Predictors of Ambulation and Functional Outcome After Major Lower Extremity Amputation: A Contemporary Review

VESS22

VESS28
Outcomes of Forearm Loop Grafts and the Potential for Creating New Upper Arm Access Sites

2:00 - 5:00 pm

P5: SVS/APMA Joint Session: Advances in Wound Care and Limb Management

3:00 - 6:00 pm

C1: International Forum

IF04
Statin Therapy Is Associated with Increased Amputation Free Survival Among Patients with Critical Limb Ischemia

IF06
First Prospective, Randomized, Multicenter Clinical Trial (AcoArt 1) for the Use of the Orchid ® DCB in Femoropopliteal Artery Disease: 2 Years Results

IF12
Standard EVAR for Aneurysms with Large Neck Diameter Results in Higher Risk of Type 1A Endoleak and Rupture

IF15
Implantation of Proximal Thoracic Stent Graft and Distal Bare Stent Promotes True Lumen Expansion but Not Aortic Remodeling in Patients with Chronic Complicated Type B Aortic Dissection

4:00 - 6:00 pm

W10: Rapid-Fire Update on Billing and Coding

W11: Deep Venous Interventions

W12: Advanced Techniques for IVC Filter Removal

5:00 - 6:30 pm

C2: The Nuts and Bolts of a Multicenter Clinical Trial

C3: Practice Management Tips and Tricks for Young Vascular Surgeons

C4: Leading Health System Change: Negotiating Critical Conversations

6:45 - 7:45 pm

General Surgery Resident/Medical Student Program - Welcome Reception
Thursday, June 1, 2017
8:00 - 8:30 am
Opening Ceremony

8:30 - 10:15 am
S1: William J. von Liebig Forum
   SS01  Characterization and Outcomes of Reinterventions Following EVAR
   SS02  Standard EVAR in Patients with Dilated Infrarenal Necks Requiring a 34-36mm Endograft Is
         Associated with Increased Risk of Type 1a Endoleak and Stent Migration
   SS03  Long-Term Analysis of Endoleak Onset and Evolution Following Abdominal Aortic Endovascular
         Repair Using Multiple Grafts
   SS05  Safety and Feasibility of Endovascular Aortic Aneurysm Repair as Day Surgery: Results of a
         Prospective Trial
   RS02  Three Year Outcomes of the IMPROVE Trial for Ruptured Abdominal Aortic Aneurysm
   VS01  Neo-aortoiliac System (NAIS) Procedure for Infected Aortobifemoral Graft
   VS02  Open Extraction of an Infected Aortic Endograft

10:30 am - 12:00 noon
F1: E. Stanley Crawford Critical Issues Forum

1:30 - 2:45 pm
S2: Plenary Session 2
   SS07  Crescendo and Single TIA: Two Different Scenarios of Urgent Carotid Revascularization
   RS04  Natural History of Progression of Carotid Artery Stenosis

2:45 - 3:00 pm
SVS Awards Ceremony

3:00 - 3:30 pm
E1: Roy Greenberg Distinguished Lecture

4:00 - 5:30 pm
S3: Plenary Session 3
   SS12  Long Term Outcomes of Indwelling Vena Cava Filters
   SS15  Immediate Access Grafts Provide Comparable Patency to Standard Grafts, with Faster
          Cannulation, Fewer Reinterventions, Catheter Days, and Catheter-Related Complications

5:00 - 6:30 pm
IP: Interactive Poster Session
   IP007  Simplified Translumbar Treatment of a Type II Endoleak Using CT Fusion in Hybrid Room
IP171

IP199
Vascular: Discussions Happening on Social Media Without Vascular Surgeons

IP269
Percutaneous Retrieval of Totally Implantable Venous Port Catheter Fragment in Atrium or Vena Cava—sixteen Cases Experience

IP271
Thrombectomy and Thrombolysis by Catheter Through Right Gastroepiploic Vein of Acute Superior Mesenteric Venous Thrombosis with Peritoneal Signs

5:30 - 6:30 pm
Opening Reception

7:00 – 8:00 pm
Networking Reception for Women, Diversity, and Young Surgeons

Friday, June 2, 2017

6:30 - 8:00 am
B4: Pushing the Boundaries in the Management of Peripheral Arterial Disease

8:00 - 9:30 am
S4: Plenary Session 4
SS17
Analysis of Wound-healing Time and Wound-free Period as Outcomes After Surgical and Endovascular Revascularization for Critical Lower-limb Ischemia
SS18
Long Term Outcomes of Lower Extremity Graft Preservation Using Antibiotic Bead Placement in Patients with Early, Deep Wound Infection After Major Arterial Reconstructions
RS06
A Randomized Study Evaluating Negative-Pressure Therapy to Decrease Vascular Groin Wound Complications
RS07
Analysis of Dorsalis Pedis Bypass in the Endovascular Era: Does It Still Provide a More Durable Repair?
RS08
Medicare Claims Data Suggests That Atherectomy for Infra-inguinal Occlusive Disease for Claudication Results in Outcomes Worse Than the Natural History of the Disease

10:00 - 11:00 am
S5: Plenary Session 5
VS08
Hypothenar Hammer Syndrome -Surgical Repair

11:15 am - 12:15 pm
Presidential Address
1:30 - 3:00 pm
**S6: Plenary Session 6**

**SS27**  
A Physician Led Initiative to Improve Clinical Documentation Results in Improved Case Mix Index and Increased Contribution Margin

**SS28**  
Financial Implications of Coding Inaccuracies in Patients Undergoing Endovascular Abdominal Aortic Aneurysm Repair

**SS30**  
Vascular Surgery Patients with Coronary Drug-Eluting Stents Have a Significantly Increased Risk of Perioperative MI Despite the Use of Appropriate Antiplatelet Medications

3:30 - 5:00 pm

**C8: Beyond Just Vascular Disease: The Vascular Surgeon in a Collaborative Role**

**C9: Update on Society for Vascular Surgery Clinical Practice Guidelines**

**C10: Poster Competition**

**PC010**  
Higher Surgeon Annual Volume, but Not Years of Experience, Leads to Reduced Rates of Perioperative Complications and Reoperations Following Open AAA Repair

**PC072**  
Safety and Efficacy of Vascular Interventions Performed in a Busy Office-based Surgery Center (OBSC) in Selected Patients with Low and Moderate Periprocedural Risk

**PC138**  
Not All Vascular Surgery Readmissions Are Created Equal

**Saturday, June 3, 2017**

6:30 - 8:00 am

**B9: How to Write a Paper and Have it Accepted in the JVS or EJVES**

8:00 - 9:00 am

**S7: Plenary Session 7**

**RS10**  
Clinical Trial and Real World Outcomes of Endovascular Iliac Aneurysm Repair with the Gore Iliac Branch Endoprosthesis (IBE)

9:00– 10:00 am

**S8: Plenary 8"Late Breaking" & VQI**

**RS13**  
Level of Clinical Evidence Presented at The Society for Vascular Surgery Annual Meeting over a 5 Year Period

**RS14**  
A Comparison of Reintervention Rates After Endovascular Aneurysm Repair Between the Vascular Quality Initiative, Medicare Claims, and Chart Review

**RS15**  
Thirty-day Outcomes from The Society for Vascular Surgery Vascular Quality Initiative (SVS/VQI) TEVAR for Type B Dissection Project

**RS16**  
Does the Choice of Anesthesia Affect Hospital Outcomes after Carotid Endarterectomy? An Analysis from the Vascular Quality Initiative Database

**RS17**  
The Age Effect on Postoperative Stroke and Mortality Following Carotid Artery Endarterectomy
RS18
Comparison of Non-Autologous Biologic Grafts Versus Prosthetic Grafts Used for Infrainguinal Bypass for Critical Limb Ischemia

RS19
The Impact of Smoking on Outcomes in Claudicants Undergoing Lower Extremity Bypass: How Much Does it Matter?

RS20
Differences in Females Presenting with Superficial Femoral and Popliteal Artery Disease with Inferior Endovascular Outcomes

SS35
Trans-axillary Decompression of Thoracic Outlet Syndrome Patients Presenting with Cervical Ribs

10:30 am - 12:00 pm
F2: Beyond the Journal of Vascular Surgery: "Top Ten" Papers Relevant to Vascular Surgery

1:30 - 3:30 pm
VH: "How I Do It" Video Session

VH01
Aortic Endarterectomy

VH03
Lower Extremity Adductorplasty During Superficial Femoral Artery Stenting

VH04
Endovascular Aortic Aneurysm Repair with a CO2 Automated System

VH06
Percutaneous Access Site Control in Complex Endovascular Aortic Interventions

VH11
Open Surgical Treatment of Symptomatic Juxtarenal Aortic Occlusion
