2016 PRELIMINARY PROGRAM

PURPOSE AND CONTENT

The purpose of this meeting is to provide state-of-the-art clinical research and vascular biology knowledge relating to vascular disease, with a special emphasis on surgical and endovascular therapy. The program will include presentations of original research by investigators interested in vascular disease. A portion of the program is dedicated to question and answer interaction between the presenters and the audience.

EDUCATIONAL OBJECTIVES

At the end of this activity, participants will be able to:

1) Improve their delivery of care to vascular patients by applying the latest advances in diagnosis and treatment of symptomatic and asymptomatic carotid disease, especially in unique populations.
2) Explain muscle strength characteristics and patient walking patterns in patients with claudication.
3) Apply appropriate glycemic control in the peri-operative period in order to improve patient outcome after lower extremity bypass.
4) Identify risk factors for surgical site infection after lower extremity bypass.
5) Describe the use and importance of left subclavian revascularization prior to thoracic endovascular aortic repair.
6) Discuss which patients and their risk factors may contribute to requiring late intervention after Type B aortic dissection.
7) Recognize the complications and retrieval rates for IVC filters.
8) Apply techniques to optimize outcomes after thoracic outlet decompression for neurogenic TOS.

CONTINUING MEDICAL EDUCATION CREDIT INFORMATION

Accreditation
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American College of Surgeons and Midwestern Vascular Surgical Society. The American College of Surgeons is accredited by the ACCME to provide continuing medical education for physicians.

AMA PRA Category 1 Credits™
The American College of Surgeons designates this live activity for a maximum of 15.50 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Of the AMA PRA Category 1 Credits™ listed above, a maximum of 13.25 credits meet the requirements for Self-Assessment.
THURSDAY, SEPTEMBER 8, 2016

12:45 PM  INTRODUCTORY REMARKS
Patrick J. Geraghty, President

1:00 PM – 3:00 PM  SESSION I
Moderators:  Patrick J. Geraghty, MD and Rebecca Kelso, MD

1:00  1.  The Impact of Postoperative Glycemic Control after Lower Extremity Procedures
Todd R. Vogel, Jamie B. Smith, Ryan J. Kim, MD, Robin L. Kruse, PhD

From:  Division of Vascular Surgery, University of Missouri Hospitals & Clinics, Columbia, MO

1:10  ◇ 2.  Use of Telemedicine for Management of Patients with Varicose Vein Disease
Yasaman Kavousi, MD, Janelle M. Crutchfield, RN, Christine Swanson, RN, Efstathios Karamanos, MD, Judith C. Lin, MD

From:  Division of Vascular Surgery, Henry Ford Health System, Detroit, MI

1:20  §3.  Muscular Strength Characteristics at the Ankle Are Altered by Peripheral Artery Disease
Molly Schieber1, Ryan M. Hasenkamp1, Nick Stergiou, PhD1, Jason M. Johanning, MD2,3, Iraklis I. Pipinos, MD2,3, Sara A. Myers, PhD1

From:  1Department of Biomechanics, University of Nebraska at Omaha, Omaha, NE,
2Department of Surgery, Veterans Affairs Medical Center of Nebraska and Western Iowa, Omaha, NE,
3Department of Surgery, University of Nebraska Medical Center, Omaha, NE

1:30  †4.  Comparison of Two Duplex Diagnostic Criteria for Carotid Stenosis with Computed Tomography Angiography
Ann H. Kim, MD1, Gener Augustin, MD1, Hannah Kim, DO1, Andrew J. Shevitz2, Katherine L. Morrow2, Michael R. Trivonovich1, Alexis R. Powell, MD1, Robert Tarr, MD3, Vikram S. Kashyap, MD1

From:  1Division of Vascular Surgery, Harrington Heart and Vascular Institute, University Hospitals Case Medical Center, Cleveland, OH,
2Department of Physiology and Biophysics, Case Western Reserve University, Cleveland, OH,
3Division of MRI and Neuroradiology, University Hospitals Case Medical Center, Cleveland, OH
1:40  +5.  Endovascular Experience at an Academic Office-based Procedure Center
Jennifer Baker, MD, Rafael D. Malgor, MD, John Blebea, MD, Harry Ma, MD, Kevin E. Taubman, MD

From: The University of Oklahoma, Tulsa, Tulsa, OK

1:50  +6.  Comparing Outcomes After Above Knee Amputations in Patients with and Without Concurrent Vascular Intervention
Nabila Sardar, MD, Anai N. Kothari, MD, Sean Nassoiy, DO, Paul C. Kuo, MD, Pegge M. Halandras, MD

From: Vascular Surgery, Loyola University Chicago, Maywood, IL

2:00  +7.  Treatment of Peripheral Vascular Disease Via Percutaneous Brachial Artery Access
Christopher F. Tanga, DO, Joseph W. Herrmann, DO, Randall Franz, MD

From: Vascular Surgery, Ohiohealth, Grant Medical Center, Columbus, OH

2:10  +8.  Impact of Left Subclavian Artery Revascularization Prior to Thoracic Endovascular Aortic Repair on Cerebrovascular Hemodynamics
Arnoud V. Kamman, MD1,2,3, Jonathan L. Eliason, MD1, Foeke J. Nauta, MD1,2,3, David M. Williams, MD1, Bo Yang, MD1, Frans L. Moll, MD2, Santi Trimarchi, MD3, Kim A. Eagle, MD1, Himanshu J. Patel, MD1.

From: 1University of Michigan, Ann Arbor, MI, 2University of Utrecht, Utrecht, Netherlands, 3University of Milan, Milan, Italy

David S. Strosberg, MD, Mounir J. Haurani, MD, Bhagwan Satiani, MD, Michael R. Go, MD

From: The Ohio State University Wexner Medical Center, Columbus, OH

2:30  10.  Reporting of Claudication Does Not Differ by Race
Samantha D. Minc, MD, Raj C. Shah, MD2, David A. Bennett, MD, Lisa L. Barnes, PhD2, Amy B. Reed, MD

From: Cardiovascular and Thoracic Surgery, Rush University Medical Center, Chicago, IL

2:40  11.  Treatment of Massive and Submissive PE with Catheter-directed Thrombolysis Does Not Require Routine Follow-up Pulmonary Angiography
Omar Al-Nouri, Krishna Mannava, Lisa Stevens

From: Vascular and Endovascular Surgery, Fairfield Medical Center, Lancaster, OH

Sponsored by: Bernadette Aulivola, MD
Complication and Retrieval Rates of Inferior Vena Cava Filters, A Single-center Retrospective Study
Nathaniel A. Parker¹, Ankit Mohla¹, Scott W. Kujath, MD², Karl R. Stark, MD², Jonathon E. Wilson, DO², Rebecca J. Thomas, RN², Robert R. Carter, MD²

From: ¹Kansas City University of Medicine and Biosciences, Kansas City, MO, ²Midwest Aortic and Vascular Institute (MAVI), Kansas City, MO

Q & A

REFRESHMENT BREAK - VISIT EXHIBITS

NEW HORIZONS IN VASCULAR SURGERY SESSION I PERIPHERAL

Moderators: Amy B. Reed, MD and Jean E. Starr, MD

Debate I:  Limb Salvage in Diabetics

Salvage Limbs at All Cost

Trissa A. Babrowski
University of Chicago Medicine
Chicago, IL

Salvage at All Costs in Diabetic Foot Wounds is Wrong, Costly, and Does Not Improve Patient Quality of Life: Primary Amputation is Ok

Timothy J. Nypaver, MD
Henry Ford Hospital
Detroit, MI

Debate Discussion

How to Establish and Maintain a Limb Salvage Program. What are the Metrics to Measure Success?

Michael R. Go, MD
Ohio State University Medical Center
Columbus, OH

The Diabetic Foot Wound (Podiatry)

Alan Block, MD, DPM-Non-Member
Ohio State University Medical Center
Columbus, OH

§ Guthrie Award
◊ Pfeifer Award
† Szilagyi Award
Debate 2: Endograft Repair of Popliteal Aneurysms? is it Truly Durable or is it a Failed Concept?

PRO Endo

Peter J. Rossi, MD
Medical College of Wisconsin
Milwaukee, WI

CON

Patrick E. Muck, MD
Good Samaritan Hospital
Cincinnati, OH

Panel Discussion

Open Revascularization in The Endovascular Era - Technical Considerations for Distal Bypass

Michael C. Dalsing, MD
Indiana University School of Medicine
Indianapolis, IN

Re-Intervening on the Stented SFA (In-Stent Stenosis) – Laser, Atherectomy, DCB, DES, What Is the Ultimate Tool?

Todd R. Vogel, MD
University of Missouri Healthcare
Columbia, MO

5:15 PM ADJOURN

5:15 PM – 6:45 PM RECEPTION IN EXHIBIT HALL

5:45 PM - 6:45 PM POSTER SESSION (Renaissance Ballroom Foyer)
FRIDAY, SEPTEMBER 9, 2016

7:30 AM – 8:00 AM  CONTINENTAL BREAKFAST WITH EXHIBITORS

8:00 AM – 9:35 AM  SESSION II
Moderators: Kellie R. Brown, MD and Sean P. Lyden, MD

8:00  +13.  Analysis of Aortic Growth Rates in Uncomplicated Type B Dissection
Maen Aboul Hosn, MD, Paolo Goffredo, MD, Jeffrey Zavala, Timothy Kresowik, MD, Rachael Nicholson, MD, Luigi Pascarella, MD

From: University of Iowa Hospital and Clinics, Iowa City, IA

8:10  +14.  Clinical Diagnostic Criteria and Pre-Treatment Patient-Reported Outcomes Measures in a Prospective Cohort of Patients with Neurogenic Thoracic Outlet Syndrome
Joshua A. Balderman, MD, Katherine Holzem, Ahmmad A. Abuirqeba, Beverly J. Field, PhD, Michael M. Bottros, MD, Lauren N. McLaughlin, RN, Chandu Vemuri, MD, Robert W. Thompson, MD

From: Vascular Surgery, Washington University, St. Louis, MO

8:20  +15.  Carotid Occlusion Is Associated with More Frequent Neurovascular Events Than Carotid Stenosis with Aspirin Monotherapy
Matthew Janko, MD1, Ryan Moore1, Ann H. Kim, MD1, Andrew Shevitz2, Katherine Morrow2, Vikram S. Kashyap, MD1

From: 1Division of Vascular Surgery, University Hospitals Case Medical Center, Cleveland, OH, 2Department of Physiology and Biophysics, Case Western Reserve University, Cleveland, OH

8:30  +16.  Surgical Site Infection: Incidence, Prediction, and Risk Factors Following Open Lower Extremity Bypass Surgery
Frank M. Davis, MD1, Danielle Horne, MD2, Scott F. Grey, PhD2, Ashraf Mansour, MD3, Timothy Nypaver, MD4, Paul Grossman, MD2, Hitinder Gurm, MD2, Peter Henke, MD2

From: 1Vascular Surgery, University of Michigan, Ann Arbor, MI, 2University of Michigan, Ann Arbor, MI, 3Spectrum Health, Grand Rapids, MI, 4Henry Ford Hospital, Detroit, MI

8:40  17.  TEVAR Migration and Aortic Elongation Differentiated Using Dual Reference Point Analysis
Hillary Alberta1, Toshio Takayama, MD1, Patrick Phelan, MD1, Annalise Panthofer1, Richard Cambria, MD2, Mark Farber, MD3, William Jordan, MD4, Jon Matsumura, MD1

From: 1University of Wisconsin Madison, Madison, WI, 2Harvard Medical School, Boston, MA, 3University of North Carolina, Chapel Hill, NC, 4Emory University School of Medicine, Atlanta, GA
Minority Race is Independently Associated with Need for Late Intervention in Medically Managed Type B Aortic Dissection
Richa Kalsi, Scarlett Hao, Donald G. Harris, MD, Oussama Benalla, Zaid A. Naseer, Ilynn Bulatao, MD, Charles B. Drucker, MD, Abhishek Bhardwaj, MD, Andres Fajardo, MD, Robert S. Crawford, MD

From: 1University of Maryland School of Medicine, Baltimore, MD, 2Division of Vascular Surgery, Department of Surgery, University of Maryland School of Medicine, Baltimore, MD, 3Department of Epidemiology and Public Health, University of Maryland School of Medicine, Baltimore, MD, 4Division of Vascular Surgery, Department of Surgery, Indiana University School of Medicine, Indianapolis, IN

Poor Outcomes in Obese Patients After Mesenteric Revascularization for Chronic Mesenteric Ischemia
Dustin Y. Yoon, MD, Katherine E. Hekman, MD, Neel Mansukhani, MD, Andrew W. Hoel, MD, Heron E. Rodriguez, MD, William H. Pearce, MD, Mark K. Eskandari, MD, Tadaki M. Tomita, MD

From: Vascular Surgery, Northwestern University, Chicago, IL

Isolated Great Saphenous Vein Thrombus is Associated with High Rates of Propagation and DVT Regardless of Treatment
Elizabeth A. Kudlaty, Babtunde Oriowo, MD, Michael R. Go, MD, Bhagwan Satiani, MD

From: 1Division of Vascular Disease and Surgery, The Ohio State University College of Medicine, Columbus, OH, 2The Ohio State University Wexner Medical Center, Columbus, OH

Intensity and Pattern of Daily Physical Activity of Claudicating Patients
