

Chicago, IL • June 19-22

**Society for Vascular Surgery
2024 Vascular Annual Meeting
Submission Policies****Pre-recorded Videos are Not Required**

For the 2024 VAM, presenting authors will not be required to submit a pre-recorded video of their lecture(s).

In-person Presentation of Any Accepted Abstract is Required

All presenting authors should be at the meeting, in-person, to present their work. Use of Zoom or any other streaming platform will not be available for a virtual lecture.

Maintenance of Certification (MOC) Self-Assessment Questions are Required

All submitting authors will need to provide one (1) self-assessment question at the time of abstract submission. (This does not apply to video submissions.) Guidelines on how to write a proper question will be made available via the submission portal, online at vascular.org and through various SVS communication channels.

=====

Author

It is SVS policy that either the submitting author or one of the co-authors of each abstract be an SVS member. If neither the submitting author nor the co-authors are members, then a member must sponsor the abstract. SVS sends all correspondence to the submitting author or member sponsor regarding the submission. **Papers may be presented by a student, resident or fellow; however, the senior author must be present in the audience during the discussion phase of the paper.** The presenting author must have a command of the English language and be able to respond to questions in understandable English.

For Vascular and Endovascular Surgery Society (VESS) session submissions, it is the policy of VESS that either the submitting author or one of the co-authors of each abstract **must** be a member of VESS. If neither the submitting author nor the co-authors are VESS members, then a VESS member must sponsor the abstract.

Redundant Publication/Presentation Withdrawal

The work represented in the abstract must **NOT** have been presented, published, or submitted to any other major meeting or journal prior to that year's Vascular Annual Meeting except for:

- Local/regional meetings
- Vascular Research Initiatives Conference (VRIC)

It is the responsibility of the submitting author or sponsoring SVS member to consult with the Program Committee prior to submission if there is any question regarding possible redundancy of the work to be presented. Direct inquiries to vameducation@vascularsociety.org.

Chicago, IL • June 19-22

Failure to comply with the above rules will result in the abstract being rejected or later withdrawn. In addition, the penalty will be a one-year ban from presentation at the Vascular Annual Meeting, subject to the discretion of the Program Committee (the only exception to dual submission is the American Surgical Association (ASA) Annual Meeting). If the abstract(s) is/are accepted for the ASA Annual Meeting, the author will need to notify SVS immediately to withdraw the abstract from the Vascular Annual Meeting.

National/Regional Meetings

An abstract accepted to the Poster Competition that has not been submitted as a paper to the *Journal of Vascular Surgery* does not preclude submission to the following regional and national society meetings:

- Eastern Vascular Society
- Western Vascular Society
- New England Society for Vascular Surgery
- Vascular and Endovascular Surgery
- Society for Clinical Vascular Surgery

If a paper has been accepted to the Eastern Vascular Society or Western Vascular Society annual meetings, it precludes presentation at the “Championship Round”. However, the poster may still be presented at the Poster Competition.

Journal Publication

While manuscript submission to one of the *Journal of Vascular Surgery (JVS)* journals is required for full-length and rapid-paced abstracts presented during the plenary & VESS sessions, there is no guarantee of acceptance. (Submission is not mandatory for any of the other program types.) Manuscript submissions must conform to *JVS* policies on originality and conflict of interest disclosure. Most accepted abstracts will be published in an online-only supplement to a regular monthly issue of the *JVS* and will be available online at the time of the Vascular Annual Meeting.
