Core Faculty

- Important to identify Core Faculty for program
- Only faculty members who spend 15 or more hours per week working on the residency program (including clinic work, didactics, research, and administration) are counted as Core Faculty
- Core Faculty complete Scholarly Activity template in ADS
- Core Faculty complete Faculty Survey
Core Faculty

- Examples of faculty members that meet the definition of Core Faculty:
  - A physician who works in the ICU with responsibilities that include clinical supervision of residents, who is a member of the Clinical Competency Committee, runs simulation, who helps write resident curriculum.
  - A physician scientist who spends most of his time conducting clinical outcomes research, with only four weeks per year of clinical time, but in addition, spends 15 hours or more supervising residents in their research projects; and writes and provides didactics related to scholarship; writes the curriculum for scholarship (i.e., statistics), and conducts evidence-based journal club.
Core Faculty

Examples of faculty members that do not meet the definition of Core Faculty:

- A physician who conducts rounds two weeks out of the whole year and has no other program responsibilities (administrative, didactics, research supervision) other than clinical work during those two weeks
- A faculty member with a PhD, and who is not a physician, who works in the basic science laboratory
