Dear Friends in Vascular Surgery,

It is my honor as president to invite you to save the date May 3 – 5, 2019 as we return to the Omni Rancho Las Palmas Resort and Spa in Rancho Mirage, CA for the 37th Southern California Vascular Surgical Society Annual Meeting. This CME accredited meeting is a highlight of the year for our membership of vascular surgeons, and residents who will compete for the Robert J. Hye Best Trainee Competition. Cash prizes will be awarded for 1st, 2nd, and 3rd place.

The essence and success of the meeting is, as always, highly dependent on the quality of the original work presented at the meeting by its members and guests. This year we received a record number of abstracts!

There are two pre meeting events to check out the 3rd Annual Kaiser Permanente Endovascular Interventions Symposium being held at Omni Rancho Las Palmas Resort in Palm Springs, CA on Friday, May 3, 2019. [Click here for registration](#). This will bring our regional vascular surgery community together for a weekend of education and social activities. The So Cal VOICe 16th - Semi-Annual Meeting - Spring Meeting will precede our meeting again this year on Friday May 3, 2019 from 10:00am - 4:00pm PST in the Begonia Room. [Click here to register](#).

I am excited to have Dr. Jeffrey Jim join us from Washington University School of Medicine, St. Louis, Missouri. He will deliver his presentation on Saturday morning. Later that day, we will have our annual banquet that is planned to be an incredible party featuring the 4 Lads from Liverpool; a Beatles tribute band. Early bird registration will save you until April 23rd so be sure to register online today!

As many of you are aware, Terri Comegys has handed the reins of directorship to Heather Roderick from Surgical Conference Solutions. We will miss Terri and her wonderful personality! You may have met Heather and her team through their work with Western Vascular Society, and we are confident they will be an effective steward to our mission. Thank you in advance for your contributions to our regional society this year!

I look forward to welcoming you to Rancho Mirage!

Sincerely,

LEARNING OBJECTIVES—
ACCME INFORMATION

Topics will be presented which relate to the clinical treatment vascular surgery patients. Presentations will focus on best surgical practice and expert opinion.

1. Participants must be able to effectively manage paravisceral aortic aneurysms with the available endovascular modalities available. They should also recognize that this is an emerging therapy with usage outside of the intended instructions for use (IFU) and long term outcomes have yet to be clearly defined.

2. Participants are expected to understand the indications and techniques of complex venous construction of the major abdominal venous structures. Moreover, various conduits are available and recognize the strengths and weakness of conduit choice.

3. Participants are invited to understand the challenges facing the future of the vascular workforce related to demographic changes projected in the US populations and be conversant in the possible divisions of labor due to the shortage of Vascular surgeons will create in the coming decades.

4. Participants will understand the indications for open aortic interventions for aortic occlusive disease with particular attention paid to unique anatomic features which lend to open surgery therapy.

5. Participants will be able to recognize the diversity of endovascular therapies being offered patients for critical limb ischemia and discuss the possible reasons for the heterogeneity in current endovascular treatments.

ACCREDITATION STATEMENT

The CME Application is pending approval by Amedco. This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Amedco and the Southern California Vascular Surgical Society. Amedco is accredited by the ACCME to provide continuing medical education for physicians. All CME evaluation links will be sent the attendees post meeting. Evaluations must be completed in order to receive a credit certificate.

Welcome to Omni Rancho Las Palmas Resort & Spa – the Palm Springs resort of choice for those who seek a carefree retreat in the sun-kissed Southern California desert. The new Omni Rancho Las Palmas is classic Rancho Mirage re-imagined for the 21st century traveler. Boasting 50,000 square feet of event space and a bustling outdoor plaza connecting guests to a world of activity: fine and casual dining, live entertainment, a 20,000-square-foot spa, 27 holes of classic desert golf, a 25-court tennis center, and four pools. Our Palm Springs accommodations offer a relaxing oasis set against a backdrop of mountains and palm trees in the middle of the desert.

Tastefully styled rooms with an early California flare boast premium king and double mattresses topped with cotton-rich linens, custom duvets and plush down comforters. In-room movies and safes, high-speed Internet access and coffeemakers are among the thoughtful amenities all guests will enjoy.

Rooms are available until April 5 at the group rate of $245.

OPTIONAL ACTIVITIES
HIKE The Rancho Mirage “Bump-n-Grind” trail which is quickly becoming one of the Coachella Valley’s most popular trails. It actually is known by several different names, including the Desert Drive Trail, Patton Trail (some people say it was built by General Patton’s troops), Desert Mirage Trail and more. After starting out as a narrow trail at the bottom, it joins a wider road that leads up from the valley floor to a vantage point that gives the hiker a nice view of Palm Desert, Rancho Mirage and the Coachella Valley. While the Bump-n-Grind doesn’t give the hiker an experience of solitude like they will get hiking some of the other Coachella Valley trails, it is a great cardio workout for hikers, and those who just want to get in shape. The access point for this trail is located on Painters Path behind the Target store in Palm Desert.

RIDE the Palm Springs Aerial Tramway!
On a hot summer’s day, one of the best things to do in Palm Springs is to take a ride from the dry desert floor with the Aerial Tramway, 5,873 feet up into the cool climate of the San Jacinto Mountains. Come and ascend into a pristine wilderness aboard the world’s largest rotating tramcars! Truly one of the greatest experiences in Southern California! The station is an easy 30 minute drive from the resort. Admission is $25.95.

4 Lads from Liverpool
Join us for the Annual Banquet Saturday night featuring the 4 Lads from Liverpool led by Jimmy Pou, who starred in Beatlemania on Broadway. They will get us dancing with three costume changes including a special set as Sargent Peppers Lonely Heart Club Band!
